Inflatable Activities Requirements

Destination Events requires the following preparations in order make sure your event is prompt, prepared and safe.

1. Our staff needs to be able to drive their vehicle within 10 yards of the event site.
2. Please make sure that the area where Inflatables will be set up is clear from any debris, sharp objects, and is on a flat surface.
3. If you event takes place outside, Destination events will want to Stake down the units. We use 8" stakes. If you are concerned about sprinkler heads or lines, please make sure they are marked clearly before our arrival.
4. All of our Inflatable units require electricity to power our fans. We do not bring generators to your event unless you rent them. Each of our units will require between 1 and 3 fans to inflate. Each fan runs at 9.5 amps and 110 volts. Most circuits are 20 AMP. This means that no more than 2 fans can run on 1 circuit. We will be happy to rent you a 50 AMP 5500 watt Generator for \$85. (1 generator can run 3 fans)

This Table shows the dimensions (space needed) and number fans needed for each unit.

5. Please provide us with turn-by-turn direction or a map to your location at least 7 days prior to your event.
6. If your volunteers are assisting with set up and break down of the Inflatables they will need to be present at the scheduled set up time on your contract. If the volunteers are running the events only, then any volunteers assigned to assist with Inflatables need to be present at least 15 minutes prior to your start time. This will ensure that we have adequate time to explain operating policies and procedures.
7. If unit is to be used Inside, Destination Events Staff will require an entrance at least 5 feet wide and 6 feet tall. If your location has a double door, please have door separator removed before we arrive.
8. Destination events staff is unable to negotiate stairs with inflatable units. Please do not select an upstairs location for your event. If staff arrives and has to deal with stairs they will either not set up the unit, or charge and additional labor fee.
